

Karma Kitchen

Growing in Generosity ...

Lunch for ___ served by _____

Your Bill Total : \$ 0.00

In the spirit of generosity, someone who came before you made a gift of this meal. Now, it's your chance to pay-it-forward for a future guest and continue the circle of giving.

People often ask, "How much did this meal cost?" Well, every month at Karma Kitchen requires 100 volunteer hours and \$700 in food costs. But there's more. It takes the collective trust, support, and creativity of the community to continue this cycle of generosity.

How much is all that worth? What is the value of experiencing a gift-economy? We don't know, but Karma Kitchen is a place to ask that very question and connect with the pay-it-forward spirit within.

What we do know is this -- all monetary contributions from today will go towards serving guests next month; if there is a surplus, it's donated to other generosity-based projects. Sometimes we make our costs and sometimes we don't, but overall it's been sustainable and we're grateful to have this opportunity to be of service.

Cash and credit cards accepted.
